PACK XMAS BOXES FOR THE SOLDIERS

Members Reid Hill Womens Institute Send 21 Boxes To The Soldiers

The October meeting of the Reid Hill Women's Institute was held at the home of Mrs. C. M. Greenlee, Lawndale, on Wednesday, October 9th, with seventeen members and five visitors present.

The question regarding Red Cross funds came up for discussion, and it was voted that the funds on hand, together with the special collection taken during August, September and October be forwarded to the Canadian Red Cross Society at Calgary, the same to be appropriated for the French Relief Fund.

The special feature of the meeting was the packing of Christmas boxes for the boys overseas. During the afternoon twenty-one boxes were packed and made ready to mail. An abundance of articles, including Christmas cakes, candies, tobacco, gum, etc., were donated for this purpose by members and friends.

Before closing Mrs. J. Marshall, Vulcan, kindly invited the members of the institute to visit the Red Cross meeting which is to be held at her home on Thursday, December 19th.

The next meeting will be held at the home of Miss Bertha Smith, on Wednesday, November 6th.

The meeting closed with the singing of the National Anthem.

GIBSON--MASON

A quiet wedding was solemnized at St. Andrews Presbyterian Church, Vancouver, on Monday, October 7th, by the pastor, Dr. Logan, when Clarence Irene, eldest daughter of Mrs. F. C. Mason, Vulcan, was married to Russell W., the only son of Mr. and Mrs. Robert Gibson, of Montreal. Only the immediate relatives were present on account of the bride's eldest brother being away in France.

The bride looked very pretty in her going-away dress of grey velvet, trimmed with grey fox fur. The happy couple left on their honeymoon after which they will reside in Seattle. Both parties are well known in this district and were the recipients of many valuable presents, among the many being a beautiful cut glass service presented to the bride by the staff of the Canadian Bank of Commerce, with whom she had been associated for the past twelve months.

SILVER WEDDING

On Friday night, October 11th, a company of about forty Vulcan people gathered at the home of Mr. and Mrs. G. McQueen to celebrate the twenty-fifth anniversary of their marriage.

After a sumptuous dinner the party spent the evening in speech and song. Mr. and Mrs. McQueen were the recipients of many valued and tasteful gifts. Congratulations are extended from all sides to these honoured citizens, in which the Advocate joins with all heartiness.

Smithing, plumbing and metal work of every description done by W. E. Butchart.

The treasurer of the Vulcan branch of the Red Cross Society desires to acknowledge a life membership contribution of \$25 from Mr. W. J. H. Colby.

Mr. and Mrs. Conlin of Sterlingville are in Vulcan on a business visit.

Mr. and Mrs. Chas. Mans of Calgary were the guests of Mr. and Mrs. A.T. Martin.

Lost near Mrs. W. F. Rannels farm a Dodge car crank. Please leave with A. C. Middleton.

Don't forget to hear W. M. Buchanan, B. P., at the Opera House on Wednesday, Oct. 23rd, when he delivers his address "A hurried trip through the western front" as it is well worth hearing. Proceeds of a collection are in aid of the Red Cross Society. Be there; it commences at 8:30.

VETERAN OF CRIMEAN WAR PASSES AWAY

It is a far cry from Crimean battlefield of 1853 to the pioneer western field of 1913 to the pioneer western sergeant on town of Alberta, but the link that bound the two was Harry Gardiner Faint who lived a retired life at the home of Mr. W. M. Walker. He was a sergeant in a Crimean regiment. He settled at Brandon, Man., on a homestead in 1881, and in the early nineties migrated to the western States, and later returned to live at Vulcan. He has been ailing for some time and his death was sudden of heart failure. Funeral services conducted by Rev. A. R. Schrag will be held at the Vulcan church on Thursday morning, Oct. 17th, at 10:30 a.m. Interment at the Vulcan Cemetery.

Mr. G. M. Whitcher is a business visitor to Calgary and Cochrane.

Mr. W. E. Butchart and his son were visitors to Calgary last week.

Mr. J. E. Davis, principal of the Vulcan school, attended the Teachers Convention in Calgary last week.

Miss Jarrett spent the holiday with her parents in Medicine Hat.

Ed. Douglass and Harry Douglass of the mounted Police, Regina, arrived in town on Friday. They are here on final leave before going to Siberia.

The Misses Mary and Hazel Douglass of Spokane, Wash., arrived on Friday for a two weeks' visit with their parents.

Mr. George Carruthers, a former resident of this district, is here from Vancouver, B. C., on a visit to his brother, Mr. T. Carruthers.

The C.P.R. have commenced to close up the railway crossing east of the depot between sections 4 and 5. It will be recalled that some time ago the company wished to close up the crossing directly east of the depot line with Minerva Street, but the village council protested it being so much used by the farmers coming from the north.

The Opera House laboured under difficulties on Monday. The Dou, "The Fairbanks Film," "The man from Painted Post" failed to arrive, and Mr. Meyer had to turn a large crowd away. The film was shown on the following evening, but under difficulties as the projector was ill. Mr. Meyer is at present in Calgary trying to get someone to take his place.

Thanksgiving Day in Vulcan was marked by no special excitement, although the news of the German backdown was received in the early hours of Sunday morning. The news, for the most part, was received with scepticism, and there was no inclination to celebrate over something that was not likely to pass.

A number of the people visited out of town, all places of business being closed for the day.

In the evening a dance was held at the Oddfellows hall, when there was a very large attendance, a number from Blackie, Brant, Nanton and Carmangay being present. Klebe's orchestra supplied the music.

LITTLE BOW RED CROSS ANNUAL MEETING HELD SPECIAL MISSION SERVICES, VULCAN CHURCH

Miss Pinkham Addresses The Meeting; Past Year's Work Successful

The annual meeting of the Little Bow branch of the Canadian Red Cross Society was held in the Alston schoolhouse on Sunday, October 6th. Mr. Schrag opened the regular Sunday service at 3 p. m., and after devotional exercises, handed the meeting over to the Red Cross Society.

Th. President, Mrs. Grant Mallory, took the chair. Before taking up the business she introduced Miss Mary E. Pinkham, provincial secretary, who outlined the work of the Canadian Red Cross Society, making special reference to the work done by the Alberta branch. She gave much interesting information which should go far to arouse the people of the district to the importance of the work.

At the close of Miss Pinkham's address, Mrs. Taylor of Champion rendered a pleasing solo, after which the secretary, Mrs. Voiey, gave the annual report. This showed that with a membership of 48, over 600 articles had been made, and \$695 raised since the organization of the branch on the first of June.

The result of the election of officers was as follows:

Pres. Mrs. Grant Mallory, 1st Vice-Pres. Mrs. D. H. Galbraith, 2nd Vice-Pres. Mrs. J. Archibald, Secretary Mrs. Guy Voiey, press correspondent Mrs. Galbraith, Treasurer Mrs. Will Fy, Superintendents of supplies Mrs. J. Michie, Mrs. C. Zahnd, executive Mesdames, Howes, Arthur Wannop, Woodward, E. Lawrence, Anderson, Messrs. W. Bowie, A. Wannop, W. Fy, Meacham and E. Lawrence.

The meeting closed with the singing of the National Anthem.

See Butchart for your plumbing and heating system.

Mr. and Mrs. J. A. Lindsay spent the Thanksgiving holiday at Portage La Prairie.

Mrs. Arnold Jones who has been visiting friends in Hanna, returned on Saturday.

The Misses Minnie Lundgren and Jose Mutz of Calgary spent the week end holiday in Vulcan.

Have you installed your furnace for the winter yet? Let Butchart see to the work.

It appears that the man who rushed through the crowd in New York and endeavoured to shake hands with President Wilson last week is a prisoner. Beyond that there is no cause to doubt the man's sanity.

INSTITUTE MASONIC LODGE AT LOMOND

On Monday evening members of the Vulcan Masonic Lodge motored over to Lomond for the purpose of instituting the Lodge in that town. Those who went were: D. H. Galbraith, D.D.G. M., D. C. Jones, A. J. Flood, C. Clark, A. M. Trail, P. Terry, W. Anderson, T. B. Lebow and T. Lawrence. Visitors from Carmangay, Nanton and Champion were also present. The name of the new Lodge is the Pyramid Lodge.

Following the ceremonial of institution the guests were entertained to supper, and the evening was spent in speech-making and a social gathering.

THANKSGIVING SERVICE AT VULCAN CHURCH

A religious service of Thanksgiving was held at eleven o'clock on Thanksgiving Day in Vulcan church, at which there was a good congregation. The Rev. Mr. Bennett, who is here with the Missioners, presided. He pointed out the indubitable necessity for constant recognition of the unceasing goodness of God. "It is really the mark of man as distinctive from all creation that he alone recognizes the claim of gratitude for all the blessings of life," said the speaker, "therefore he vows to pay the sacrifice of Thanksgiving."

Mr. W. D. Allen was a visitor to High River on Monday and spent the day with friends shooting. The birds were scarce but a few were bagged.

Mr. and Mrs. Chris Jones and little son of Calgary, were the guests of Mr. and Mrs. Arnold Jones on Sunday and Monday.

Application is being made to the village council to have the village pump repaired. At present it is in a bad state, something being wrong with the pump and the water trough is also broke.

The sale at the Cope Drug Company store closes on Saturday and those who are looking for bargains are asked to take advantage while it lasts. See the advertisement in another part of this issue.

The Rev. Fr. Smith of High River, was in Vulcan on Saturday and Sunday, and conducted Mass at the Oddfellows hall on Sunday morning.

Constable W. E. Walker of the A.P. P., is taking his vacation. His territory is being looked after by Constable Mackie, of Barons.

Roses in October are not a general thing, especially in Vulcan, but Mr. Lawrence informs us that he has at present a rose tree in bloom. In the spring he bought two rose trees. One died, but the other, after a struggle for existence survived, and its flowers are now in bloom.

Mr. and Mrs. C. R. Rogers wish to announce the engagement of their niece, Mary McAndrews, of Chewelah, in the state of Washington, U.S.A. to Francis Joseph Beinguessner, of Champion, Alberta. The marriage ceremony will take place on October 31st, at the home of Miss McAndrews at Chewelah, and Mr. and Mrs. Beinguessner will be home to their friends at Champion, Alberta, after November 15th.

CLOSED DOWN ON ACCOUNT OF SPANISH FLU.

A special meeting of the council will be held this evening to consider a recommendation of the Health Board, that all schools, places of amusement church meetings, and assemblies generally be suspended until further notice, owing to Spanish influenza. That the council will carry out this recommendation is a foregone conclusion.

While no cases have been reported in town, cases are out in the country districts, Ensign, Reid Hill, Berrywater, Champion, and other centres being affected.

FARMER CAUGHT WITH CARLOAD OF WHISKY

Taken In Champion; Seven Cases Of Firewater In His Possession

A.P.P. Mackie of Barons, made a rich haul last Friday night in Champion, when he caught Orlando Ditto, a farmer who resides a few miles west of Champion, with seven cases of whisky in his possession. At the time the policeman was on the street and noticed the car, which had one occupant, was without lights. He got into conversation with the occupant, who did not appear to relish the conversation with the policeman. On being asked who was the owner of the car the man stated that it belonged to Ditto.

The policeman waited until Ditto appeared on the scene and then arrested him. Ditto and the car were brought to Vulcan. The car and its contents are still held here, and Ditto is out on bail for eight days, until October 20th, on two sureties of \$500.

SPANISH FLU IS HERE NOW; WHAT TO DO

Dr. Knowles, medical health officer, reports cases of Spanish influenza in the district. He gives the following symptoms and treatment, taken from the provincial board of health bulletin: "First, there is a sneezing, or coughing, accompanied by headache, backache or general aching of the bones and joints. This may be preceded by a chill, but a chill is not always present. Then there is an immediate rise in temperature in a few hours. The fever persists about three days, and is likely to go up to 101, and even 103 degrees. Then the fever disappears and in those cases that terminate happily the trouble ends right there.

The treatment prescribed is: Rest in bed, warmth, fresh air, abundant food. Every case with fever should be regarded as serious, and kept in bed at least until defervescence of the fever. Convalescence required careful management to avoid serious sequel.

LOMOND AND BARONS CELEBRATE VICTORY

Lomond and Barons were among the towns which celebrated the news that the Germans were ready to accept Wilson's terms.

The Lomond celebration took the form of a public bonfire, with music by the town band. The Masonic visitors from Vulcan when some distance from the town, thought that it must be on fire so great was the blaze, but on arrival they found only what proved to be a jubilation on the part of the inhabitants.

In Barons the noise started at about three o'clock when shots were fired. Those who were in bed got up to see what was the matter, and found Mayor Warnock in charge of the ceremonies of celebration. The crowd gathered and under the able leadership of Warnock and McKay the entire town was aroused. The organ of the church was requisitioned and brought into the street, and around this the crowd gathered and sang until the morning. In the afternoon a special service was held at which there was a large gathering.

REV. L. E. BROUGH ACCEPTS CALL FOR REID HILL AND KIRKCALDY

The services at the Reid Hill Baptist Church were well attended last Sunday, the Rev. L. Elgin Brough preaching morning and evening. A large congregation was also in attendance at the services at Kirkcaldy. Next Sunday the Rev. Mr. Brough will preach again, the services being as follows: Reid Hill; Sunday School 11 a. m., preaching services at noon and 7:30 p. m., Kirkcaldy, Sunday School at 2:30, services at 3:30.

Mr. Brough has been strongly urged by these Church communities to accept the pastorate, and this he has consented to do.

PEACE AND PIRACY

The brute still lives. However much some people may have counted on a change of heart in Germany, seemingly apparent in her professed acceptance of President Wilson's terms as a common basis of peace, they can still perceive, if they will, that the hideous soul of militarism is as vigorous as ever. Such a nation, forsooth, to talk of peace by agreement, as if any arrangement with her was within the wildest dreams of possibility until her teeth have been drawn and her claws clipped.

Last week we had the figure of what we were asked to believe was a peaceful Germany to look upon. White-robed and innocent, in her hands the olive branch and on her lips a prayer for peace in the interest of humanity, that the awful bloodshed and toll of humanity might cease. And while the mistress masqueraded thus her servants the pirates were at sea, their work resulting in the losing of hundreds of lives when the American ship Ticonderoga, the British steamer Leinster and a Japanese liner were sent to the bottom by German submarines.

The atrocities attending the sinking of the Ticonderoga were especially fiendish and therefore typically German. Men were murdered by gunfire, every available small boat save one was destroyed; the remaining boat, filled with twenty men, was tied to the submarine, the object being to pull it under the water, the escaping men with it, but the rope broke. It is futile to argue that these things were carried out in ignorance of the peace move; all the submarine commanders so near to their bases must have been aware of the proposals to be put forth.

But why labour the subject? Germany is and will be the anthesis of right and decency until she is shorn of her power. Her very reason is polluted with the rottenness of crime and barbarism. President Wilson is right; the Allies cannot make peace with a nation at the head of which are the devotees of militarism. Peace must be made with the people, and not with them until they have disowned their wanton crimes. It is a matter for some optimism that at the present time internal Germany is beset with misgivings. Let her proceed until she finally throws off the yoke, and then it may be time to cry enough. But until that time full military reparation must be exacted. Germany cannot de-

mand peace, she must be made to sue for it, otherwise she is not thoroughly beaten.

TEACHING PATRIOTISM IN THE SCHOOLS

At the Teachers' Convention of the Calgary and High River districts last week, the Hon. George P. Smith, Minister of Education, delivered an address in which he drew attention to the need for the stimulating of patriotism in the minds of the rising generation.

While Mr. Smith speaks under the influence of the war and with a vision centered on the welfare of this country, it must occur to most of us that patriotism, as part of the school curriculum, is badly in need of a systematic overhauling. It is a difficult matter after all, to define patriotism or to point out what its limitations are. We take it in its broader sense, as it should be taken. But our sample of patriotism as inculcated through the medium of schools has been of a smaller calibre, and more of the flag-waving variety, the sort that averred that the country could do no wrong. Love of country is given to the young most, as a matter of victories and the deed of conquerors; while the mainspring of patriotism, the love of country for the good she had done and is capable of doing is a factor lightly passed over. That is the seed from which spring our present growth of enthusiasm over battle-departing troops and in difference over their return and the care of their dependents. The matter does not go deep enough into our civil and national welfare; there is a tendency for there to be glossed over while we seize upon the dramatic issue, and a performance on the whole is rather too theatrical, although well meant.

The time has come to pass from this circumscribed outlook to one of a greater significance, one which is a patriotism for our own land, and an understanding of our own land in relation to other lands no less deserving of consideration from all standpoints. We cannot allow the young people of Canada to grow up in the narrow patriotism of yesterday; there is a wider significance to be grasped today. It is their inheritance and they must be educated in keeping with it.

GOOD CAUSE FOR THANKSGIVING

The advent of Thanksgiving Day should bring with it a newer outlook, the personal merging into the communal. Our rather parochial outlook upon the welfare of our village, our town or city is undergoing a broadening influence which in the end must throw our vision beyond our provincial or even national borders to a wider horizon, that bordering the community of nations with whom we are linked in the struggle for common decency and right.

The war has brought us a heritage for by the dynamic forces springing herefrom we have been cast out of our circle of comparative insularity into one embracing men of other tongues and habits, and claiming other beliefs. We realize more fully today than ever we did before that our part in affairs of the world has grown and strengthened until we are no dependency or colony, but a virile nation with full

claims to a hearing and a decision. Our soldiers on the battlefields have fought and died with unexampled valour for democracy, our people at home, by their thrift and labour have made us a potential factor in the economic considerations of the world. Our importance has grown by leaps and bounds.

And with it our responsibilities have also kept pace. We have more to do more to think about, a larger sphere to occupy and more important part to play. That is Canada's position today.

Looking over the field into which circumstances have called us we find further use for thanksgiving. In all its phases the war has taken on a new situation. The Allied cause, never lost but often darkened, stands in the ascendant with every promise of final victory for the cause. While our own harvest has not been as great as it was in the two previous years, the countries of our Allies have increased production to such an extent as to relieve Canada's obligation somewhat. So that in the two vital matters of today, the progress of the war and the food situation, there is abundant cause for thanksgiving. As the weeks go by, and the fulfillment of today's promises come to pass, it is within the hope of us all that next Thanksgiving will find the world at peace, with our cause triumphant. But while returning thanks for our present promising situation, let us not forget that final realization is brought nearer and accomplished more fully by the rightful direction of our own personal efforts. Our outlook for today must be for the good of all.

Save for Victory Bonds.

If you cannot shoulder a gun you can pocket a Victory Bond.

Play the game. Don't cheer for the soldiers and then do nothing else; buy Victory Bonds.

Millionaires in the United States are to be taxed more heavily than ever next year. As yet there is no report of any of them coming over to Canada.

Germany offers peace with one hand and burns cities with the other. Show your belief in her by buying Victory Bonds.

The Railway Commission is being urged to fix the prices charged in dining cars. They might also consider the advisability of giving the diners something to eat.

The rumor that the kaiser has abdicated his throne lacks confirmation. It also lacks the spirit of humility of the kaiser. The danger is that he will only abdicate through force.

The demand from the people of Germany that they be told the truth regarding the real state of the war is pathetic, since none of their leaders are in the habit of telling it.

Whatever may be our private sentiments the non-taxable nature of the new Victory Loan, we must submerge them on behalf of the common weal, and invest all we can in them. The home front of Canada has done well to date; let us bear in mind that we still have to do well if the war is to be won as we want it to be won. Therefore invest every cent you can in Victory Bonds.

The Spanish influenza has progressed westward, cases having been reported at Calgary and Lethbridge. In the latter city every precaution was taken to prevent the spread of the disease. Schools were closed, public meetings and performances cancelled and the Churches asked to forego their services on Sunday. If an idea as to what was the best preventative medicine had been thrown out at the same time the attempt to overcome the disease would have been much better.

Hon. F. B. Carvell, minister of public works, is responsible for the statement that we in Canada are going to have direct taxation after the war. The announcement is welcome although it is hard to understand why the matter has not been put into operation and pressed home long before this. Our lax system of indirect taxation has been the means of taking considerable wealth out of the pockets of the people and giving the greater part of it to individuals, the government getting only a tithe thereof.

The Lethbridge Herald makes the suggestion that since Baron Shaughnessy has retired from the C.P.R. he should be asked to take some work of national importance. The idea is timely. While the rest of our Allies, the United States and Great Britain in particular, have made the best use of the brains of their countries, Canada has allowed hers to remain idle, nationally, conferring the government of the country on an almost purely political aggregation, and the results have not been so satisfactory as they would otherwise have been.

Eight machine guns captured by an Edmonton battalion at Amiens will soon be the property of that city. The trophies are now on the way.

The minister of education for Alberta says that a revision of school grants is needed and that he will do his best to see that changes are brought about.

An eastern editor got off the following: "Spain's great gifts to civilization are as follows: No. 1 Spanish Inquisition; No. 2, Spanish Armada; No. 3, Spanish Onions; No. 4 Spanish Influenza."

HUNS LATEST LUNACY

Again we are as Allies the recipients of peace overtures, and this time in a little more definite form, which might have serious considerations leading to probable definite results, were we not suspicious of the evident intrigues underlying the motives as advanced. The first and important proposition advanced by the Hun in his late application is that of amnesty, an immediate cessation of hostilities; the well of a whipped dog, the cry of the under cur, who sees his finish and wants to save his skin. The granting of an immediate amnesty would certainly be to his liking; then a round-table conference for a duration of six months or a year, an opportunity for recuperation and reconstruction of his forces for a further participation in war activities when the results of the conference were not to his liking, as perforce is his intentions. Amnesty, indeed, the cry of a coward, who sees the utter futility of further resistance the certainty of invasion of his precious soil and the destruction of his properties. The answer will be and

already is the even greater prosecution of the present offensive until, if necessary, the complete annihilation of the Huns alleged prerogative is completed. This is the demand of the Allies at home and on the field. The bitter sacrifices of the past four years are not to be so soon forgotten nor so easily appeased. Some satisfaction for past atrocities, with the sword is the demand of our fighting men and only the handing over of his weapons with an unconditional surrender, will the Huns escape the punishment which is justly due them and which our soldiers desire.

To put an end to a quarrel by saying angry words in an angry voice, is as foolish as to put out fire by pouring oil upon it.

"You, there, in overalls," shouted the cross-examining lawyer. "How much are you paid for telling untruths?" "Less than you are" retorted the witness, "or you'd be in overalls too."

One hundred per cent per annum is not bad profit for sheep raising in Saskatchewan. That this can be done is testified by Hon. G. W. Brown, former lieutenant-governor, who has never made less than the amount mentioned in any of the six years he has been engaged in breeding sheep on his farm at Lajord.

It would appear that increased allowances are to be provided for soldier's dependents. It is none too soon. The government shouldn't delay in increasing the allowance. The dependents find it hard to meet the increased cost of living and they should be relieved from their worries in this regard immediately. It is as clear as day light that they are entitled to the increase.

If a body meet a body
Loaded up with rye,
Should a body greet a body,
Or just side by?

DIED—JOHN A. McINTYRE

John Alexander McIntyre died at the Holy Cross hospital, Calgary, last Tuesday afternoon, October 8th, at 5 o'clock. He was 45 years of age, and is survived by a wife and three sons, also his mother and two brothers and two sisters, living in Oregon, and two brothers, Peter and Duncan, at Ensign Alberta, and two sisters, Mrs. Ed. J. Taylor in Nanton. His death was caused by pneumonia, and he was taken to the hospital two weeks ago.

Mr. McIntyre came here from Oregon about fourteen years ago, and engaged in farming for a few years. He then rented his land and engaged in the real estate business in Calgary. About five years ago he came back to Nanton and again engaged in farming but he and his family have lived in town.

The funeral was delayed to await the arrival of members of the family from Oregon. Funeral services were held in St. Andrew's hall Friday, Oct. 10.—Nanton News.

IN YOUR TOWN AND 100 OTHERS

Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back:—

—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;

—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;

—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;

—for these purposes Canada must

borrow hundreds of millions of dollars—

And, this money must be borrowed from the people of Canada:—

Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

Canadians will loan the money by again buying Victory Bonds.

The national safety, the national honor and the national well-being require that each and every Canadian shall do his duty by lending to the nation every cent he can spare for this purpose.

Be ready when the call comes to see your
country through in its great war work

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada

BLACKIE NEWS

There is nothing quite so exasperating to the motorist than to take a trip over some of the roads in the Dinton Municipality. They are full of ruts and bumps and no attempt has been made to improve the same, notwithstanding that many cars have come to grief through driving over these roads. One farmer who recently motored over the road east of Blackie leading to High River declared it the worst ever, and yet it was his candid opinion that \$25 expended at the proper time would place the road in very good shape. He suggests that one of the farmers be engaged to run his dig over these bumpy parts, immediately after a rain, followed by a drag and the result would be a road that would be passable even to a Ford car. This suggestion is passed on to the councillors of the district in question.

John Bresnahan of Dinton, after motoring to Blackie recently was heard to remark that he would enjoy the pleasure of driving Premier Stewart over some of the roads hereabouts. It would only require one trip to convince the premier of the necessity of spending at least fifty per cent of the motor license money received from the farmers of our roads. Personally we think he was rather modest in his demands for our opinion is that all license money over and above expenses should be expended in the municipality from whence it came. Up to the present the great bulk of the money received from motor licenses is spent way up north where there are only a few cars in proportion to that in the southern part of the province. This is not right and farmers should demand a square deal in this respect.

Messrs. Miller and McRae have enlarged their garage and are now preparing to accommodate their many customers.

The dance on Friday evening last in the Auditorium was largely attended and a good time was reported by all present. Klebe's orchestra supplied excellent music.

Sometime ago reference was made in these columns regarding a complete government rural mail service whereby all the farmers would be supplied with a service that would be satisfactory. At present there is dissatisfaction inasmuch as only a few are able to avail themselves of the service. In a certain circle from Blackie to Dinton Glenview, Blind Creek, Mossleigh and Herrington there would be no difficulty in getting every farmer to get a mail box. The question is why is not

something done to establish the route.

It would be rather interesting to know the number of auto owners in the Dinton municipality. If Reeve Andrew Orr would have the councillors of the various districts as to the above from their respective districts, we could then see how much money the government received from motor licenses and from other sources we could learn how much they expended on roads.

Nearly every town in Alberta but High River was represented at the convention of Union of Alberta Municipalities held at Medicine Hat last week.

Britain's navy which in August 1914 had totalled two and a half million displacement tons, swelled by June of this year to a sum of six and a half millions; its personnel had grown from 146,000 to nearly 400,000.

Regulations have recently been passed by the Dominion Government and adopted under order-in-council forbidding the Royal Northwest Mounted Police and the Dominion Police from joining labour unions.

Dr. George F. Baer, of the Homeopathic hospital staff, Pittsburg, Pa., U. S.A., announces that he has found a successful cure and preventative for Spanish Influenza. The cure is not a scientific secret, but a combination of iodine and crocote.

The U. S. War Industries Board has announced that steps will immediately be taken to reduce the manufacture of non-essential articles for the next four months in order to conserve labor, materials and transportation. Pocket knives, bicycles, motor cycles, clocks, watches, boilers, radiators and rag felt floor coverings are affected.

The German submarine menace has broken out again. Last weekend they torpedoed and sank the American ship, the *Georgica*, the British ship *Leinster* and the Japanese liner *Hirano Maru*, all accompanied with loss of life and brutality. The U-boats are larger than formerly and more heavily armed.

The Ontario government is investing half a million dollars in feed concentrates to tide the farmers over the winter months when transportation will be monopolized by coal and grain. Standard feed will be manufactured and sold through millers at \$56.50 per ton for dairy feed and \$57 for hog feed, in car lots.

THRIFTING, ARE YOU?

We think we are thrifting, But maybe we're drifting, And the coin that we clink is not saving but shifting, For seemingly spending Goes on without ending And heedlessness still is the trend of our trending.

In gleaning my meaning, You'll find gasolining Is still used for dusting instead of for cleaning;

And most of us batten On fine fare and fatten, While robing our softness in purple and satin.

Oh, maybe you're guilty and maybe you're not, But ask: "Have I thrifted as much as I ought?"

Our thrifting is sickle, It runs in a trickle, We pickle a nickle to give us a tickle, Then ride on the trolleys To go to the Follies And hand ourselves thanks and a couple of jollies.

Man still goes on puffing, Imbibing, and stuffing, And holding enough yet without "Hold' enough" -ing, While woman still poses And shows us her hoses, All silken and sheer to excuse her disclosures.

At the end of the day, if you're feeling too good, Ask this: "Have I thrifted as much as I should?" (Copyright, 1918, N.E.A.)

THERE'S A WARNING IN TRADE FIGURES

For those who understand Canada's financial conditions there is a significant lesson in the trade figures recently issued from Ottawa.

For the first five months of the present fiscal year there was a decrease in Canada's foreign trade of \$270,000,000, or about 20 per cent. There was a great falling off alike in manufactures and agricultural products exported with \$1,146,000,000 a year ago.

These figures tell in potent terms of the instability of present conditions. Our trade, though still large and healthy, is on an insecure and unending foundation. War conditions have created a fictitious prosperity. There may be no reason for alarm but there is reason for caution. The Government must watch and prepare, so should the individuals. Few Canadians but are affected in some way by the present conditions. The wise ones will prepare by practising thrift now.

The Nation can be no stronger than its individual citizens.

ALIENS MUST REGISTER

A proclamation will shortly be issued, it is expected, calling all friendly aliens, except Americans, within the Dominion to register for military service. The conventions with the allied governments have been practically concluded, and the formal call is now understood to be under consideration by the government.

The conditions will be practically the same as have been provided in the convention with the United States. A Belgian, Frenchman, Italian or subject of other allied country residents in Canada, will be placed on the same footing in regard to military services as the Canadian at home.

DOGS' WOOL

The spinning of dogs' wool has proved a success, and several officers have been opened in London to receive and prepare the combings. The Ladies' Kennel Association, Belfast Chambers Beak street, Regent street, W. receive the wool, sterilize it and clean it, after which it is sent to the central work rooms for spinning. The wool from Pekinese and collies is especially beautiful; the old grey sheep dog is also responsible for delightful knitted jackets that stand no end of wear and launder beautifully. All soft-haired dogs yield lovely wool, and the hair from wire-haired dogs is used to stuff pillows for the wounded. The Countess of Gosford, Royal Academy, Piccadilly, W., has charge of this industry.

Save fuel, Mrs. Housewife, by keeping the bottom of your pots and kettles clean. In steam boilers, one-sixteenth of an inch of soot decreases efficiency by 50 per cent.

The first community canning factory in Elgin county has been opened at Mapleton, Ontario, six miles from St. Thomas, by the local Women's Institute. The products of the factory, formerly a cheese factory, will be used exclusively by the Red Cross, both at home and overseas. Apple and berry jelly, pickles and corn and peach, elder berry and plum jam will be put up as well as about 10,000 chickens to be donated by the farmers of the country.

GIRL AMBULANCE DRIVERS

There are about 300 girl ambulance drivers in the Red Cross service in France. The only other woman ambulance drivers in France belong to the First Aid Nursing Yeomanry Corps. There is a friendly rivalry among the Red Cross girls in the matter of keeping their "bus" spick and span. Whenever a trainload of wounded arrives the Red Cross girls must be on hand, and this means constant duty, day and night. Exceptionally good driving is a characteristic of each girl, and before under taking this dangerous and arduous work a girl is required to pass a severe test at Devonshire House. Among other things she must know how to attain speed without jolting the wounded, as a bit of rough driving might prove fatal to the poor lad. Fenderness linked with courage of the finest and highest kind is always found in the girl ambulance driver. Ten shillings a week with expenses is the pay. Those who have time to think of uniforms consider that of the ambulance girl the smartest and most becoming of any war uniform for women—provided it is well cut and made.

NEW SYSTEM OF HANDLING SEED GRAIN IN CANADA

The entire system of supplying seed grain for needy settlers and collecting therefore has been overhauled and what is virtually a new system throughout has been put into effect. At the instance of Hon. Arthur Meighen, minister of the interior, a conference was held with the western provincial governments in the city of Regina, and as a result arrangements have been completed for the fair division of responsibilities as between the Dominion and provincial authorities.

In 1914, when seed grain relief was necessary the government made advances directly to the settlers, bought the seed, shipped to internal elevators where it was cleaned and sacked and reshipped to points of distribution. The cost of handling in consequence added considerably to the price of the seed, owing to present conditions with the prevailing high price of seed, it was felt that the desired result could be effected more economically and more satisfactorily for the settler by a system that would enable him to purchase the seed locally. The Canadian Bankers' Association has agreed to co-operate and arrangements have been completed with the banks whereby loans can be made to needy settlers on unplanted lands. The rate of interest on these advances will not be more than seven per cent.

A settler needing assistance must apply to the secretary-treasurer of the municipality in which he resides, or, if the district be unorganized to the provincial officer of the department of municipal affairs. The application having been verified by both the municipal and Dominion authorities, the bank makes the necessary loan, taking the usual seed grain security and a lien upon the unpatented entry. Payments are due on January 1, 1920.

As a result of the policy established the settler can make his own arrangements in regard to the purchase of seed, although, if there is none available locally the department of agriculture is arranging for shipment to be sold to the farmers at cost.

The government guarantees the bank to the extent of principal and 5 per cent interest only. Should the bank not collect the obligation this is all it receives. On collections actually made by the banks the government pays a commission of one per cent. The minister is confident that this arrangement will effect an important saving in distribution and collection expenses and that it will go far towards confining advances to actual needs and will result as well in a quicker and more business-like discharge of obligations incurred.

An order-in-council has been passed embodying the above arrangements, and the necessary machinery is being put in motion immediately by the department of the interior.

GOVERNMENT FORBIDS STRIKES DURING WAR

An order-in-council passed last week forbids, for the duration of the war, strikes or lockouts, and imposes severe penalties for violations of the law.

Any person violating any of the regulations is made liable, upon summary conviction, to a penalty not exceeding \$1,000, or to imprisonment for a period not exceeding six months, or to both fine and imprisonment.

Any male person, employee or employer of military age who violates any of the regulations, or any director of a company, who being of military age, acquiesces in violation by the company of any of the regulations, shall be deemed to be a soldier enlisted in the military forces of Canada and subject to military law for the duration of the war and of demobilization thereafter. He shall also forfeit any military exemption he may have been granted.
